AI BLOGNEST API

Demonstration of Proposed Features

Walkthrough supported by shared API examples

TEAM ID	SWTID 2026-5569
TEAM SIZE	5
TEAM	Nithesh D (Leader); Madhan P; Poovrasan K; Duraisamy M; Praveen Kumar R
DATE	30 September 2026

Preparation

Start the local API and database, configure Gemini credentials, and open the Thunder Client requests. Use safe demo data.

Suggested sequence

• Register and log in; show success responses without exposing credentials.

• Retrieve protected profile.

• Create a blog with title/content/category.

• Retrieve blog list and explain returned data.

• Generate a blog using topic and category.

• Summarize sample content.

• Show the folder structure and explain module responsibilities.

Evidence available

Previously shared screenshots show successful example status codes for register, login, profile logs, blog create/list, AI generation, and summarization.

Evidence boundary

No demo video link or full current API test collection was attached for this team in this turn. Do not claim unshown update/delete results.
