AI BLOGNEST API

Project Executable Files

Code layout and local setup reference

TEAM ID	SWTID 2026-5569
TEAM SIZE	5
TEAM	Nithesh D (Leader); Madhan P; Poovrasan K; Duraisamy M; Praveen Kumar R
DATE	30 September 2026

Visible project files

VS Code screenshot shows src folders (config, controllers, middleware, models, routes, services), app.js, server.js, .env, .gitignore, package.json, package-lock.json, README.md, and Thunder Client collection/environment files.

Environment

Configure database URI, JWT secret, Gemini API key, and port in local environment settings. Never share live secrets.

Run

Use the project README and package scripts for exact install/start commands; those file contents are not visible in the screenshots referenced here.

API checks

Thunder Client screenshots provide example request/response evidence for auth, blogs, generation, and summarization.

Source boundary

No source ZIP was attached for this team in this turn; this document set uses the project details and screenshots previously shared for AI BlogNest API.
