AI BLOGNEST API

Solution Requirements

Functional and quality requirements

TEAM ID	SWTID 2026-5569
TEAM SIZE	5
TEAM	Nithesh D (Leader); Madhan P; Poovrasan K; Duraisamy M; Praveen Kumar R
DATE	30 September 2026

Functional requirements

• Register and authenticate users.

• Retrieve authenticated user profile.

• Create and retrieve blog posts; the described project scope includes full CRUD.

• Use categories to organize blog posts.

• Generate blog content from topic and category with Gemini.

• Summarize submitted content with Gemini.

Interfaces

REST endpoints shown in evidence include POST /api/blogs, GET /api/blogs, POST /api/ai/generate-blog, POST /api/ai/summarize; auth evidence includes register, login, and profile routes.

Quality and security

JSON API, JWT authentication for protected functionality, MongoDB/Mongoose persistence, and environment-based credentials.

Acceptance evidence

Shared local screenshots show successful example responses: auth register 201, login 200, profile 200; blog create 201/list 200; AI generation 201 and summarization 200.

Boundary

Detailed schemas, every route’s access policy, error cases, and deployment target were not independently supplied in this turn.
